E911 Address Verification Project Underway

NEW KENT VIRGINIA, FEBRUARY 26, 2009: WorldView Solutions, Inc. is conducting a field inventory of addresses in the County for E911 mapping. The field inventory data will be used to improve the County's ability to respond to citizen needs during emergencies. This inventory includes verification of all addresses and photographs of primary structures. In order to obtain this information, WorldView Solutions staff will need to visibly verify the location of each address in the County. Brett Jones and Cory Esson, the individuals conducting field inventory, will be driving a silver 2002 Ford Escape with Virginia license plate JVX-9413. Questions regarding this project should be made to: Matt Forbes, GIS Coordinator, at 966-8522.
