

TO SEARCH FOR A PLAT OR SURVEY

Tax maps are not the same as a plat or survey of your property. Tax maps are available through www.spatialsys.com/newkent/

Septic or drainage fields are rarely denoted on plats maintained by the clerk's office. There may be a county department such as permitting that can help you.

Land records are searched in person. There is no public link through the Internet. Records are indexed by the property owner's name not by street address. If you have a street address and no name please contact the Commissioner of Revenue's office to find out who owns the property or at least who gets the tax bill.

Not every piece of property has a survey on record.
