

# PARK FACILITIES

## Quinton Community Park

This park is the first county developed recreational park. It is located at the corner of Henpeck Road and Quinton Park Trail. Quinton Community Park is equipped with 2 unlit baseball/softball fields, a pavilion, playground, Tot Lot, and 1/2 mile walking path. Future development includes courts, Fit Trail system and added picnic areas.

## Wahrani Nature Trails

Chesapeake Forest Products Company opened this trail property in 1973 to help develop a public appreciation for the natural environment. The trails were opened to mountain bikes in 2007 to make this facility a multi-use trail for bikers, walkers, and joggers. Trails are currently marked by colored blazes on trees along the trails. Future improvements and development plans include adding a picnic area, a fit-trail system, a restroom facility and re-marking of the trails. Full color maps of the trails will also be added throughout the trail system.

## Eltham Battlefields

The battlefield sites commemorate the Battle of Eltham's Landing in May 1862 as part of the 1862 Peninsula Campaign. Current amenities at site #1 include parking, battlefield fencing, and a description of the activities that occurred in the Eltham area during the civil war. Amenities at site #2 will be forthcoming in the near future. Currently there is only a parking area at this site. Future amenities at this site will include fencing and a description of the site's importance to the 1862 Peninsula Campaign. Other future amenities at both sites will include a picnic area.

## Quinton Community Center

This building was donated to the county by the Ruritan Club on June 1, 2006. Since the donation the building has received a new roof, a new brick facade, new wood floors, upgraded bathrooms, upgraded HVAC system, new ceiling and lighting, and a new monument sign. A kitchen upgrade is due this winter. The building is now available for rent for your function. Please contact the Parks and Recreation office for more information on renting of this facility.
